

2024 NATURAL SHORELAND EROSION CONTROL CERTIFICATION (NSECC)

WHEN AND WHERE

TUESDAY, JANUARY 23RD, 9 AM-4PM

This is an in-person session at Vermont State University,
Randolph campus

FRIDAY, JANUARY 26TH, 9 AM-4PM

This is a virtual session with live webinar presentations and
group discussions

Before

2017 Installation

2020 Three Years Later

COURSE OVERVIEW

- Introduction to Lake Ecology: Why Shorelands Matter
- Overview of Permitting and Regulations
- Introduction to Shoreland BMPs
- Benefits of Native Plants for Landscaping
- Bioengineering—Hands-on Case Studies
- Act 76 & Finding Funding for Bioengineering Projects
- Demonstration of Appropriate Products, Operation, and Maintenance

LAKES & PONDS PROGRAM

**LANDSCAPERS
CONTRACTORS
SITE WORKERS
WATERSHED GROUPS
ENGINEERS, ETC.**

WHY

Vermont has over 1400 miles of lakeshores with some of the greatest residential density and development pressure in the state. This voluntary certification course teaches landscaping techniques that control stormwater runoff and conserve wildlife habitat, as well as the science and regulations behind them. These are essential shoreland development practices for protecting Vermont lakes.

**Upon completion,
participants can
choose to be listed
on the Agency of
Natural Resources
website.**

**Registra-
tion is
live and
is posted
online**
