Northwest Regional Planning Commission (NRPC) is a governmental organization created by the municipalities of Franklin and Grand Isle Counties. NRPC implements a variety of projects and programs to serve local, regional and statewide needs. All municipalities in the region have two locally appointed members of the Board of Commissioners.

2025 GRAND ISLE TOWN PROJECTS

- Provided technical assistance in local planning and zoning.
- Granted regional approval of the newly adopted Town Plan and confirmation of the Town's planning process.
- Participated in the planning process for updating the Local Hazard Mitigation Plan.
- Completed a consultation of the municipal planning program.
- Provided the 2025 VTrans Highway and Community Maps.
- Contracted with the Town of Grand Isle to begin a comprehensive revision of the Town's Development Regulations.
- Collaborated with the Planning Commission and Selectboard on regional future land use mapping for the 2026-2034 Northwest Regional Plan update, which will be the new process for maintaining Village Center Designation.
- Facilitated meetings, developed agendas, secured speakers and trainings, updated bylaws and drafted minutes for the Grand Isle County Mutual Aid Association and Regional Emergency Management Committee.

This year the Commission will assist our member municipalities with grant applications, project management, water quality project implementation, and local road permit compliance. NRPC will support local energy and climate planning, zoning bylaw updates, emergency preparedness, brownfields redevelopment and other needed services. NRPC will help promote the Missisquoi and Lamoille Valley Rail Trails and update its regional plan to support more housing. The Commission has no regulatory or taxing authority; however, each year we do request a per capita assessment in support of local and regional activities and to provide matching funds for state and federal programs.

Your continued support for NRPC is greatly appreciated. We are your resource – we are here to help with planning, zoning, transportation, project management, mapping or other needs.
