

Swanton Town and Village Hazard Mitigation Plan needs your input!!

Hazard Mitigation is sustained action taken to reduce or eliminate long-term risk to people and property due to natural or man-made disasters. Local Hazard Mitigation Plans are updated every 5 years.

A Hazard Mitigation Plan helps our community to:

- Identify cost-effective actions for risk reduction
- Focus resources on the greatest risks and vulnerabilities
- Build partnerships between residents, organizations, and businesses
- Increase education and awareness of hazards and risk
- Communicate our priorities to state and federal officials
- Align risk reduction with other community objectives

Benefits of having an approved Hazard Mitigation Plan:

- Provide the Town and Village with a roadmap for becoming more disaster resilient.
- Municipalities can receive federal funds from:
 - Hazard Mitigation Grant Program (HMGP)
 - Flood Resilient Communities Fund (FRCF)
 - Building Resilient Infrastructure & Communities (BRIC)
- The Town and Village will receive a higher level of post-disaster reimbursement through the Emergency Relief and Assistance Fund (ERAF).
- Municipal Officials and First Responders are better prepared!
