

Berkshire Selectboard meeting notes from April 20, 2026 at 7:00 p.m.

Attendance: Attendance: Jason Kittell (via phone); Todd Kinney, Andrew Smith, Mark Larivee, Danny Kennison, Emily Fecteau.

Local Emergency Operations Plan (LEOP): The board reviewed the town's LEOP and approved using assistance from the Northwest Regional Planning Commission (NRPC) for its development and implementation. The Local Emergency Management Plan (formerly LEOP) is a critical hazard mitigation document that outlines emergency response procedures, local contacts, and resources for natural and man-made disasters.

NRPC is working on updating the hazard mitigation plan. The plan development may use the planning commission meeting schedule if it fits with the project schedule. The outreach plan was finalized and posted as well as a community survey. Most of the hazards are the same as last time but a few additions that align with state mitigation plan.

Meeting ended approximately 7:40 p.m.
